PRODUCT DESCRIPTION

St Marys Type GU cement is a general use cement appropriate for most applications.

BASIC USE

Portland cement is the binding ingredient used in concrete mixes with or without supplementary cementitious materials. It is a general-use cement suitable for all uses where the special properties of other types of cement are not required.

TECHNICAL DATA**APPLICABLE STANDARDS**

- CSA A3001 – Cementitious Materials for Use in Concrete

PRECAUTIONS

Avoid contact with eyes. Contains Portland cement, which when mixed with water creates a calcium hydroxide solution. If splashed in eyes or skin, flush thoroughly with water. Avoid contact with skin, including contact with saturated clothing. Persistent discomfort requires prompt medical attention. For more information, reference the applicable Safety Data Sheet (SDS). The SDS should be consulted prior to use of this product and is available upon request or online at www.stmaryscement.com

AVAILABILITY

St Marys GU cement is available in bulk or packaged form. Contact manufacturer for information on distribution and availability.

WARRANTY

Manufacturer will provide mill test certification that product meets and exceeds applicable CSA specifications.

St Marys Cement will not guarantee finish work, having no control over the use of this product.
